You see Ivan if you venture too far into the unknown you encounter strange and horrible things but such is life in the zone. This is comrades the BEST GAME EVER. Do you want to be slav? No problem! You have Vodka, Adidas, Bears and a big map. The graphics are not the best but for the experience it is worth it. (P.S.. Very fun game i recommend). Very good. Never played such a great game before! Download or 20 years gulag lmao.. cant register. Are you too broke to buy S.T.A.L.K.E.R.? Would you rather be a bandit? Is your computer a literal 4th graders' science project? Do you like incoherent gopnik babbling and a variety of weapons? If so, this is definitely the game for you. And for the price of only 50c it's a steal. If anything, just buy it for the comedic value. Edit: I'd also like to take this moment to call Valve Corp. out on its recent anti-consumer practice of subtly hiding negative reviews.. My expectations were low, but holy You can't even straight down or straight up. Game freezes like 24/7 on very high end hardware. .. There are a few things that could be done to improve the game, but for \$1, why complain? for how much it cost, it's pretty good. With a tiny bit of work, this could actually become a huge deal. Suggestions: Fewer gun bots. They take down a lot of health and I have no clue how to dodge them. loot on the ground. it's russian, you're bound to find a mosin somewhere Other than that, no complaints. it's a fun enough game for how little it cost.
