The voice acting is sooo bad. Thankfully there are not many scenes, just before and after each area is complete. The match 3 is just basic stuff. There are three helpful items you can use, such as a hatchet to break chains. You can only use them once their meter is full. And there's bosses! That was unexpected. Boss level at the end of each section. It was different and kind of cool, so I give them a plus for that. But overall it's just not worth it to me and I requested a refund. This game has no achievmenets. No trading cards. No incentive to keep playing. And the voice acting is worse than high school, it's that bad. Oh, and it has spiders, too..
